Dishwasher tablets 3 in 1

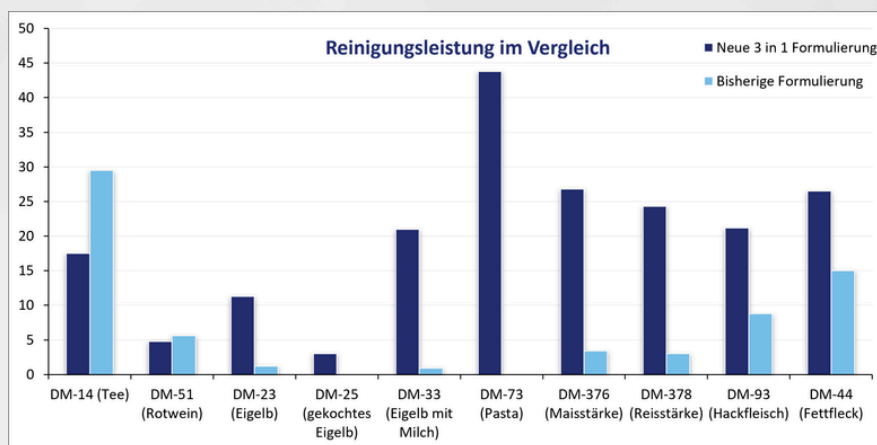

Key Facts

- 3 in 1 solution: Cleaner, rinse aid & regenerating salt in one tablet
- ECOCERT-certified according to the "Eco Washing and Cleaning Products" standard
- Dermatest-certified with the top rating VERY GOOD (tested on people with atopic skin and neurodermatitis)
- Significantly improved cleaning performance compared to the previous formula.
- Powerful cleaning performance even at 45°C - Saves energy
- Water-soluble film
 - Biodegradable without microplastics (OECD test method 301 B)
 - Dissolves quickly and completely even in cold water.
 - No more clumping of the tabs.
- Only 12 g per tablet: Reduces CO₂ emissions and material usage compared to current tablets
- 4 package sizes: 3, 30, 60 and 900

Proof of performance

The 3-in-1 solution shows significantly better cleaning results compared to the previous formula:

Application / Dosage

Place the tablets, with their water-soluble protective film, in the detergent dispenser or cutlery basket (in this case, run a program without pre-wash). For very hard water, the use of salt and rinse aid is recommended.

Avoid washing hand-painted, gold-plated and silver-plated items, aluminium, copper, gold, silver, horn, wood, old porcelain, crystal glass, etc. in your dishwasher.

Store in a dry, dark place at room temperature.

Washing and cleaning products certified by Ecocert Greenlife SAS, according to the "Eco Washing and Cleaning Products" standard, available at detergents.ecocert.com/en, 96% of the total ingredients are of natural origin.
